

Call for Support to the 4th Congress of the CroLASA and 3rd joint CroLASA-SLAS meeting

„Laboratory animals in scientific research“

Dear Sir/Madame,

The Croatian Laboratory Animal Science Association (CroLASA) is organizing the 4th Scientific Symposium "Laboratory Animals in Scientific Research" in collaboration with the Slovenian Laboratory Animal Society (SLAS) which will take place on 5th and 6th February 2025 at the Faculty of Veterinary Medicine in Zagreb, Croatia.

Our aim is to bring together scientists and experts who use animal models, or their alternatives, in their work, to give an overview of scientific research in fundamental and translational studies. The symposium topics will include animal models for disease research and treatment development, new methods in laboratory animal research, advancement of standards for animal use in experiments with a focus on the 3R principles, and many others.

The Scientific program will be presented by eminent experts and young scientists from Croatia and Slovenia who use equipment and material provided by Your Company, so we see this Congress as an opportunity for you to interact with participants and promote the latest product lines of interest for the audience. For this purpose, we ensured that all session breaks and poster sessions took place within the exhibition area.

There are several opportunities for your Company to support Congress organization either by sponsoring the congress activities, or promotion/advertising of your Company on-site and/or in our printed and e-materials. You can find details below.

If you have any questions or suggestions, feel free to contact us by email at info@crolasa.com or with your application before 20th December 2024.

We are looking forward to welcoming you to the Congress.

Best regards,

On behalf of the Croatian Laboratory Animal Science Association

Maja Lang Balija, PhD, DVM. President
